

A WINE LIST INSPIRED BY THE SEA.

journey from the sun-kissed shores and islands of greece. trail the vast and varied mediterranean coastline, winding up, via the steep, green terroir of the coastal atlantic wine regions. end down via volcanic islands to the dramatic coastline of south africa.

more than 450+ options, a project more than 12 months in the making. this wine list is a true labour of love.

carefully sourced wines from producers we admire, with stories we are excited to share with you. a focus on greek producers, but not limited to this.

please note this is a sample list only. we regularly update + rotate our offering. with many limited bottles on offer, when it is gone, it's gone.

WINE BY THE GLASS

SPARKLING

			125ml	750ml
greece	macedonia	xinomavro brut cuvée spéciale 2022, <i>domaine karanika</i>	10.5	62

greece	tinis	'to kokkinaki' 2021, <i>domaine kalathas</i>	18		105

A GUIDE TO THIS LIST.

INFLUENCE OF THE SEA

coastal wines. floating between the earth and the ocean. a mix of oceanic, salty notes, minerality typical of seashore soil, and elegance from sandy soils.

SURROUNDED BY THE SEA

island wines. salty, savoury, electric. often wind-beaten and sun-reared, or smokey and volcanic. full of complexity and uniqueness.

FURTHER INLAND

mountains, valleys + rolling hills. grapes you may know, and some you likely won't. both classics and something different.

SPOTLIGHT ON XINOMAVRO

xinomavro [ksee-no-mav-roe] - a grape that has earned greece its place in world of fine wine. with a fruit and tannin profile similar to nebbiolo, plus an incredible ability to age, its similarities to barolo and nebbiolo are striking. whilst xinomavro's home is in naoussa in the foothills of mount vermio [n.e. greece], other areas like rapsani [thessaly] and amyndeio [macedonia] are producing fantastic wines from xinomavro. from the traditional long-macerated and french oak-aged wines, to fresher, unoaked versions, rosé wines, white wines and even sparkling wines, xinomavro is a grape that should be on everyone's 'to try' list.

PRODUCER PROFILE

INFLUENCED BY THE SEA

STORM WINES. HEMEL-EN-AARDE, SOUTH AFRICA.

storm wines, started by hannes storm in 2012, focuses its attention on crafting the purest and most characterful expressions of chardonnay and pinot noir it can from their three vineyards, 'vrede', 'ignis' and 'ridge'. located in the hemel-en-aarde valley ['heaven-and-earth' valley in afrikaans], their vineyards are tucked behind the coastal town of hermanus, 120km south east of cape town, south africa. influenced by the cool atlantic ocean nearby, this terroir is characterised by a series of undulating escarpments, with each appellation having its own micro-climate. this unique geography brings out subtle differences and aging potentials in their wines. the clay-rich, 'Bokkeveld'-shale derived soils of 'vrede' and 'ridge', and decomposed granite soils of 'ignis' influence these wines in remarkable ways: storm wines is producing wines comparable to some of the best burgundy around.

PRODUCER PROFILE

SURROUNDED BY THE SEA

VICTORIA TORRES PECIS. LA PALMA, ISLAS CANARIAS.

high-altitude, volcanic peaks. this exceptional selection of wines is something we have been carefully saving until now. born and raised on the island, victoria torres pecis, whose family have been making wine here since 1885, is making a name for herself, and the island. her wines have become some of the most sought-after island wines today. working with native varieties malvasia, negramoll, listán negro, listán prieto, albillo and listán blanco, viki torres ferments these exceptionally old vines naturally, patiently and with care to produce wines with finesse, balance and mineral purity that evoke energy and complexity.

PRODUCER PROFILE

FURTHER INLAND

FRANK CORNELISSEN. ETNA, ITALY.

mountain wine, but on an island. frank cornelissen's wines take etna and terroir to a different level. he is a pioneer of the region and a committed believer in the work of 'mother earth' and what she makes happen in the vineyard. he makes single vineyard wines from the unique volcanic soils in the north valley on mounth etna, where each expression is an encapsulation of a vineyard and a vintage, farmed with minimal intervention and made the same way. frank's wines are the very essence of minerality and volcanic terroir.
